## **Other Frogwatch Resources**

These are available at Frogwatch events or by contacting the Frogwatch Coordinator.

- “Frog Calls of South East NSW and the ACT” Audio CD, by Ederic Slater.
- Frogwatch Thermometer.
- “Creating a Frog Friendly Habitat” brochure.
- Frogwatch Reports, 2002 - 2007.
- “Frogs In Your Backyard” - Frogs of the ACT & Region poster.

## WEBSITES

- **Ginninderra Catchment Group** [www.ginninderralandcare.org.au](http://www.ginninderralandcare.org.au)

This site contains information about the ACT and Region Frogwatch Program, and you can download copies of all of our Frogwatch and other resources from here. You can also find out about the other activities of the Ginninderra Catchment Group.

- **Amphibian Research Centre** [www.frogs.org.au](http://www.frogs.org.au)

A first stop for Australian frog enthusiasts, this site provides comprehensive and varied information on all aspects of Australian frogs. This site includes sound bites of the calls of Australian frog species, and the community frog forum, where you can chat about frogs with experts and other community members. Includes links to: Project Corroboree, The Victorian Frog Group, The Frogs of Australia Database, the Melbourne Water Frog Census, Alcoa Frog Watch, The Lost Frogs' Home ... and much more!

- **Frogs Australia Network** [www.frogsaustralia.net.au](http://www.frogsaustralia.net.au)

The Frogs Australia Network aims to establish itself over the coming years, providing a comprehensive 'portal' that showcases the efforts of frog conservation across Australia and directs you to the right source of information and people. The website includes the Australian Frog Database, Conservation, Resources, Community, Members, and News.

- **Frogs of the Australian National Botanic Gardens.** [www.anbg.gov.au/anbg/frogs/index.html](http://www.anbg.gov.au/anbg/frogs/index.html)

Information about frog species that are present in the Botanic Gardens, including a description, drawing and audio bite of the mating call for each species.

- **Australian Herpetological Directory.** <http://www.jcu.edu.au/school/tbiol/zoology/herp/herp2.shtml>

A directory put together by James Cook University which provides links to Herpetological Groups and current research projects.

- **ASX Frog Focus.** [www.asxfrogfocus.com](http://www.asxfrogfocus.com)

A curriculum-based education resource that will motivate and engage school students and their communities in the study of frogs.

- **Amphibian Diseases Home Page.** [www.jcu.edu.au/school/phtm/PHTM/frogs/ampdis.htm](http://www.jcu.edu.au/school/phtm/PHTM/frogs/ampdis.htm)

A home page for diseases of amphibians relevant to amphibian declines. Contains protocols for handling of specimens and surveys for the amphibian chytrid fungus.

- **AmphibiaWeb** <http://amphibiaweb.org/>

AmphibiaWeb is an online system enabling anyone with a Web browser to search and retrieve information relating to amphibian biology and conservation. This site was inspired by the global declines of amphibians, the study of which has been hindered by the lack of multidisciplinary studies and a lack of coordination in monitoring, in field studies, and in lab studies. We hope AmphibiaWeb will encourage a shared vision for the study of global amphibian declines and the conservation of remaining amphibians.

- **Commonwealth Department of Environment and Heritage – Australian Frogs, An Overview.** [www.deh.gov.au/biodiversity/threatened/publications/frog-overview.html](http://www.deh.gov.au/biodiversity/threatened/publications/frog-overview.html)

Details evidence and possible reasons for frog population declines in Australia.

- **Global Amphibian Assessment** [www.globalamphibians.org](http://www.globalamphibians.org)

The Global Amphibian Assessment (GAA) is the first-ever comprehensive status assessment of the world's 5,743 known amphibian species. This project represents the first time that all amphibians have been assessed against the ICUN Red List Categories and Criteria, and as such is an important contribution to the Red List Programme. More than 500 scientists from 60 countries contributed to the three-year study.

- **Livingunderworld** [www.livingunderworld.org](http://www.livingunderworld.org)

"A non-profit, educational website, whose purpose is to make available accurate, and organized amphibian information for hobbyists, professionals, or curious individuals".

- **Frogland.** [www.allaboutfrogs.org](http://www.allaboutfrogs.org)

From a frog-lover with too much time on her hands, Frogland seems boundless. This very, very extensive site is both a fun place to kill some spare time and a useful starting place to go about locating any frog-related information on the internet.

## REFERENCE BOOKS

- Lintermans, M. and Osborne, W. 2002. **Wet and Wild. A Field Guide to the Freshwater Animals of the Southern Tablelands and High Country of the ACT and NSW.** Environment ACT.
